In this index, entries are arranged in their original sequence under each surname heading.

Folio numbers on the microfilm are stamped on alternate frames. In the index, a stamped frame is shown with an 'a' suffix (e.g. 221a), while the following (unstamped) frame is given a 'b' suffix.

Thanks are due to Mr George Dockrell of the Shorne Local History Group, who transcribed the census for Shorne and supplied the data as computer files. The remaining parishes were transcribed from photocopies of the originals by the Meopham House Group, and thanks are due especially to Joan Goodwins who organised the transcription sessions. The data was entered into computer by the following members of NWKFHS: Stephen Archer, Paul Homer, Ken Jones, Noel Livermore, and Henry Symms.

Stephen Archer, 1851 Census Co-ordinator, December 1995
